

## MARKETING MEMO

## INREACH® SATELLITE SUBSCRIPTION PLANS

## PRODUCT UPDATE

Satellite subscription plans to access the Iridium® satellite network have changed and now offer more value on the higher-end plans. Please see the following pages for the new personal and professional plan details.

## PERSONAL PLANS

For outdoor enthusiasts, adventure seekers, explorers, travelers and anyone who needs a global communications solution, an inReach device and satellite subscription can mean added preparedness and peace of mind when you need to stay connected. Choose our monthly Freedom plan or an annual plan to meet your airtime service needs.

- Monthly Freedom plans are ideal for your next adventure or seasonal use, requiring only a 30-day commitment with the ability to suspend service when you don't need it.
- Annual plans are great for year-round use, with lower monthly cost and peace of mind that your inReach device is always ready to use.

## PROFESSIONAL PLANS

Garmin offers an array of flexible inReach professional solutions that helps keep everyone on your team connected, safe, oriented and informed. Our Professional Flex subscription plans offer three levels that meet the operational needs of your teams or organization, including the following:

- All Flex plans are month to month and only require a 30-day commitment.
- You can suspend service in the offseason or when staff is not deployed in the field.
- You can move up or down a plan for free when your tracking or communication needs change.
- Enhanced administration tools are available to manage devices, tracking and communications.
- Advanced API provides access to messaging and tracking data.

Contact [inReach.professional@garmin.com](mailto:inReach.professional@garmin.com) for more information about inReach professional solutions.

Visit [Garmin.com/inReach](https://Garmin.com/inReach) for more information about devices and subscription plans. Activate your inReach subscription at [Explore.Garmin.com](https://Explore.Garmin.com). • All prices are subject to change. inReach devices require satellite subscription activation to access the Iridium satellite network for live tracking and messaging functions, including SOS. • NOTICE: Some jurisdictions regulate or prohibit the use of satellite communication devices. It is your responsibility to know and follow all applicable laws in the jurisdictions where the device is intended to be used.
